

Our highly skilled team consists of interventional pain management specialists who collaborate with physical therapists, chiropractors and other specialists. We bring years of experience and a unique multidisciplinary approach to achieve the best outcomes possible.

Narrative reports - Upon request can be provided for slip/fall, personal injury and workers compensation cases.

# COMPREHENSIVE CARE UNDER ONE ROOF

## 01. Interventional Pain Management

- X-ray guided spinal and joint injections to relieve pain such as epidurals, radiodfrequency ablations, and spinal cord stimulation

## 02. Stem Cell Injections

- Regenerative treatments to treat chronic joint pain by accelerating healing and repairing damage tissue

## 03. Physical Therapy

- Under direct supervision and collaboration with a doctor on site. Includes specialized techniques to instantly improve mobility, strength and reduce nerve pain

## 04. EMG/NCS Testing

- Electrodiagnostic testing to evaluate for nerve damage such as carpal tunnel syndrome, neuropathy and radiculopathies

## 05. Neuropathy

- Specialized neuropathy treatments such as for diabetic and chemo-induced neuropathy outside of traditional medications. Designed by both an MD and PhD

## 06. State of The Art Technologies

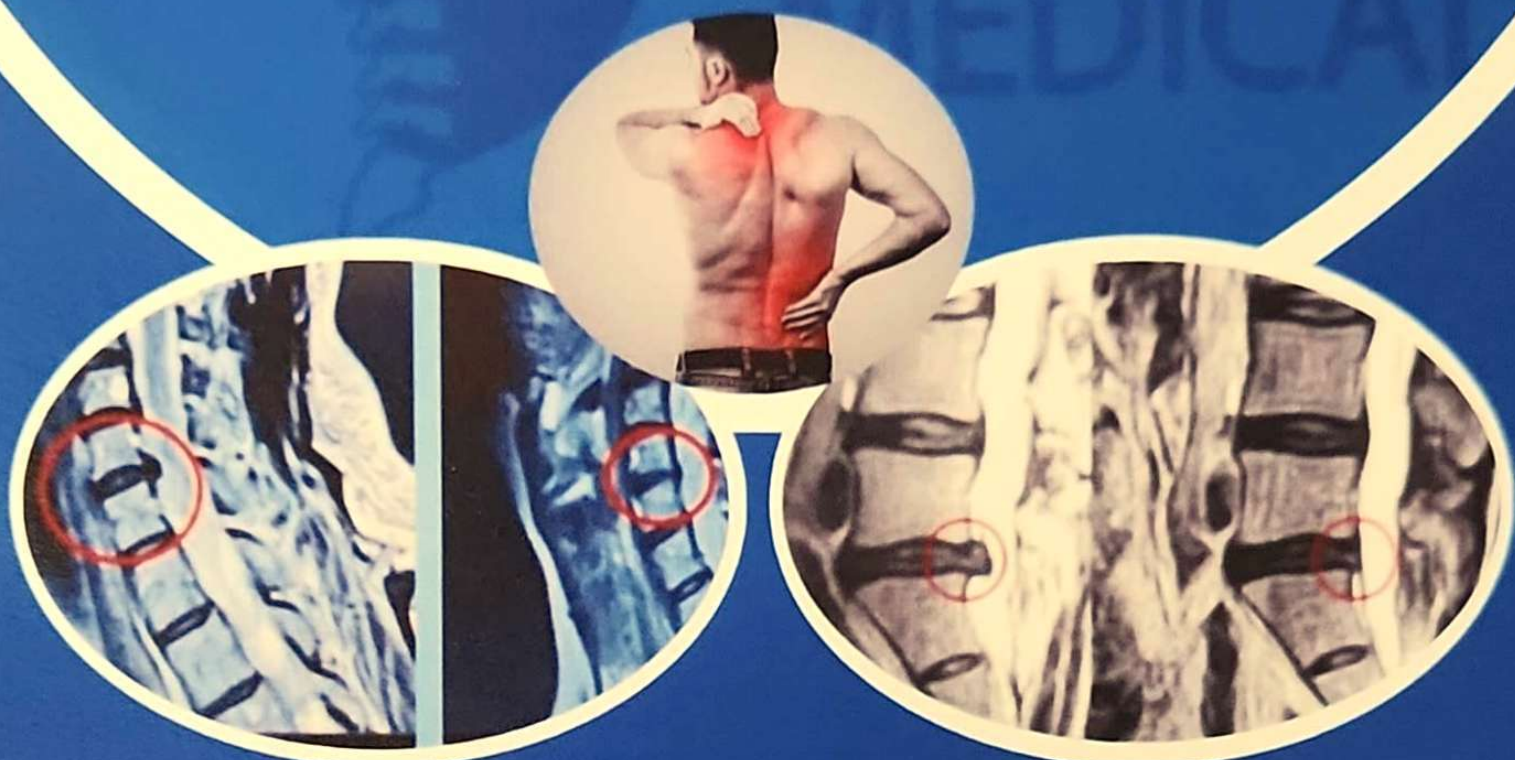

- Class IV Laser Therapy, Spinal Decompression, Shockwave Therapy, and Noninvasive Peripheral Nerve Stimulation

# VKP MEDICAL
